

**SPEEDKING™ WITH
TRIDENT™ SEGMENT TECHNOLOGY**

FORCE4® SpeedKing™ Diamond Chain with Trident™ Segment Technology

Engineered for the professional who demands the best, the SpeedKing Diamond Chain for cutting concrete delivers up to 20% faster cuts when compared to the FORCE4 Premium S chain. Featuring cutting-edge Trident Segment Technology, this new chain from ICS offers relentless speed and durability, maximizing productivity and enhancing profitability on every job. Cut through the competition with SpeedKing and reign supreme in efficiency and results.

Why SpeedKing ?

Geometry on diamond segments isn't new to our industry and has been used in concrete cutting consumables for some time. Therefore, what is different about SpeedKing with Trident Segment Technology?

SpeedKing™ with Trident™ Segment Technology is a patent-pending innovation that will redefine cutting performance. This groundbreaking design boasts a unique geometry setting a new standard in the industry and delivering up to 20% faster cutting speeds without compromising chain life. With this cutting-edge advancement, ICS continues its legacy of providing industry-leading products that push the boundaries of efficiency and performance.

FORCE4® Premium S, SpeedKing Diamond Chains with Trident™ Segment Technology cut up to 20% faster throughout the life of the chain than our previous FORCE4® Premium S Chains. But don't take our word for it.

Customer Feedback:

"Cuts noticeably faster, especially through rebar"

- Israel, Portland, OR

"This chain is FIRE"

- Tim, Brentwood, NH

"Feels like it is cutting twice as fast, this thing RIPS!"

- Ray, Chicago, IL

KEY FEATURES

Up to 20% faster

Revolutionize your cutting with our new chain technology that accelerates diamond exposure, boosting productivity and ensuring peak performance throughout the life of the chain

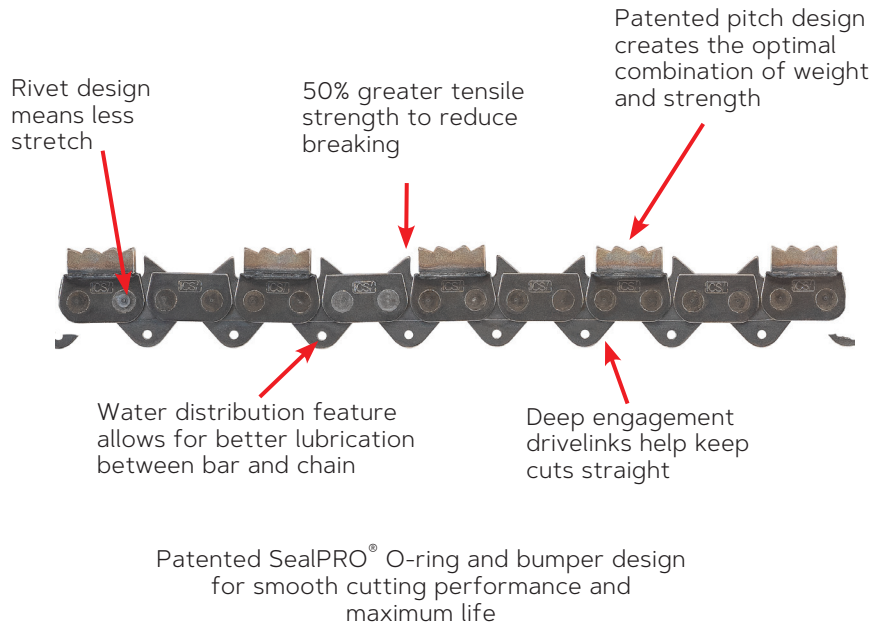

Industry leading speed and life

Experience cutting-edge performance without sacrificing chain life.

New Tech at NO additional cost

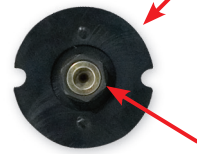

With the purpose of delivering productivity and driving profitability, ICS is offering this new redesigned chain at no additional cost.

FORCE4® Diamond Chain requires unique FORCE4® components

FORCE4® Drive Sprocket

Upgraded guide ring design distributes load for greater durability

Tool steel alloy guarantees exceptional strength, life, and abrasion resistance

FORCE4® Guidebar

Laser-cut internal water channels keep the nose sprocket lubricated

Deep groove stabilizes FORCE4® bar chassis for straighter, cleaner cuts

Available in 10-, 15-, 20-, and 25-inch cutting depths
